

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/mhealth-21-8	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All data that do not hold the potential to reveal the identity of the study participants will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years from the publication date.
7	To whom will you share the data?	Data will be shared with health care researchers interested in the study of obesity and eHealth.
8	For what type of analysis or purpose?	For analysis relevant to the data collection properties, so e.g. analysis comparable to those in our present study.
9	How or where can the data/documents be obtained?	Email should be sent to the address below to obtain the shared data. jch@drholm.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared. For instance, due to the nature of this research, participants of this study did not agree for their data to be shared publicly.
